Quality that never compromises

## HOUSEHOLD SEWING MACHINE ( MODEL : EM 2-1/2)

For nearly 100 years, this classical machine has been used for low cost, household applications. It still is a favourite machine in my markets. It can be operated manually or by a small 90W motor that can be easily mounted on the machines itself giving it a clean and compact look. The machine can also be supplied with a wooden base and cover or with a cast iron stand and table.

## ZIG – ZAG 130
